

Integration of price charts on the internet

Companies listed on Deutsche Börse have access to a special investor relations tool, enabling you to use a link to integrate the price chart of your share into your Website free of charge.

This offer is directed at:

- Companies in Prime Standard
- Companies in General Standard
- Companies in Scale

Example: Deutsche Börse

Deutsche Börse

Equity, ISIN DE0005810055, WKN 581005

The personalised price site can be accessed via a company-specific link. It comprises a general part and the individual ISIN of the respective share.

The link consists of the following:

German:

[https://bfrank.ariva-services.de/de/deutsche_boerse/kurse.m?isin=\[ISIN der Aktie\]](https://bfrank.ariva-services.de/de/deutsche_boerse/kurse.m?isin=[ISIN der Aktie])

English:

[https://bfrank.ariva-services.de/en/deutsche_boerse/kurse.m?isin=\[ISIN der Aktie\]](https://bfrank.ariva-services.de/en/deutsche_boerse/kurse.m?isin=[ISIN der Aktie])

You will have to replace [ISIN of the share] with your individual ISIN code.

For legal reasons the information contained on the price site must be integrated in full, including a source reference and logo.
